Question Suggested at Hearing by Committee Which Is Seeking Facts.

citizens, of whom two should be women.

Curnegie's Offer Still Open,
Dr. Metcalf said that he had written to Mr. Carnegie's secretary to know whether the former offer of \$200,000 was still open, and had been informed that the matter could not be taken up unless the request came form a duly accredited city official. He called attention to the fact that Mr. Carnegie does not insist on the institution bearing his name, the Louis-ville Free Fublic Library having received \$150,000 from him. Members of the committee asked a number of guestions in regard to establishment of a branch for negroes, the suitable location of the central library, and the policy which seems to be growing in many cities of operating small branches in many sections of the copy, and so taking the books to the people.

Another meeting of the committee will be called shortly by Chairman Umlauf.
